

Bends

BPDL-45

Description

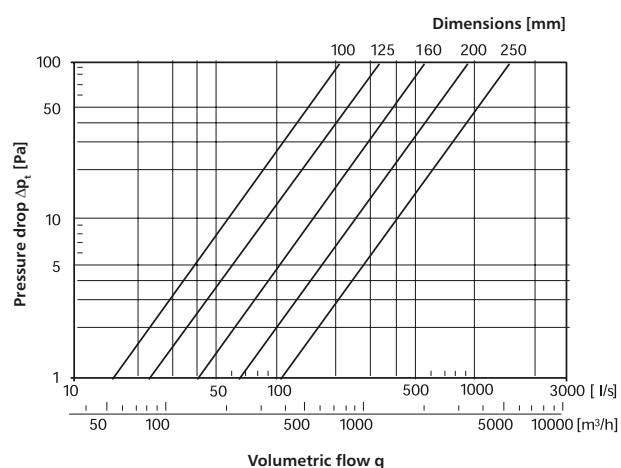

Pressed ventilation duct elbows dedicated for SPIRO ducts and regular ventilation ducts. Linear weld and double EPDM rubber gasket ensure class D insulation according to Eurovent standard in the entire ventilation and recuperation system, without additional sealing agents. To connect the elbow to the ventilation duct, slip it into the duct. Pressed form results in less resistance and lower pressure drop.

Example identification

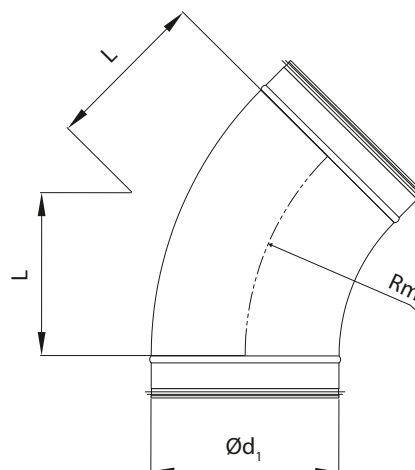

Product code: **BPDL- aaa - 45**

type _____
 $\varnothing d_1$ _____
 ° _____

Technical Data

Dimensions

$$r_m \approx 1,5 \times d_1$$

| Type [mm] | $\varnothing d_{1 \text{ nom}}$ [mm] | L [mm] | Weight [kg] |
|-------------|--------------------------------------|--------|-------------|
| BPDL-100-45 | 100 | 150 | 0,3 |
| BPDL-125-45 | 125 | 190 | 0,4 |
| BPDL-150-45 | 150 | 225 | 0,6 |
| BPDL-200-45 | 200 | 300 | 0,9 |
| BPDL-250-45 | 250 | 375 | 1,3 |
